

## **Flowers for Days**

by  
Sydney Downing

I'm from "Click your heels together"  
and the blanket that kept me safe.

I'm from let downs  
and the long gravel road.

I'm from Disney movies on Saturdays  
and the closet that knows my biggest secrets.

I'm from endless hours of country music  
and the flowers that sat in my room for days.

I'm from Colorado road tips  
and "I love you, Ladybug".

I'm from playing "Mafia" on Wednesday  
From grass green cuttings on Sunday.

I'm from midnight tractor rides  
and long hikes in the gorge.

I'm from dropping dolls out of the window  
and the stitches that saved me.

I am from summertime bug bites  
and winter warm hot cocoa

I'm from the lights that brought us closer  
and the tears that tore us apart.

I'm from the stepping stone  
that showed me what love  
and family respect are  
and gave me a new life.
