Introduction

**Corbett School District
2012-2013 Fiscal Year Approved Budget
Budget Document User's Guide**

The 2012-13 Fiscal Year Approved Budget is organized into the following sections:

Budget Summary- This section contains three combining statements each displaying the District's funds in separate columns. The Fund Summary displays all the resources and requirements of the District. The following Revenue Detail expands on the revenue section of the previous Fund Summary report. In the same way, the Expenditure Summary expands on the expenditure line. It shows three different perspectives- expenditures by major category, by major function and lastly by fund.

Fund Summaries- The first statement in this section combines all funds and compares the previous two years actual amounts, the current year revised budget, and lastly the 2012-2013 Approved Budget. The 2012-13 Approved Budget column ties to the total column in the Combining Fund Summary report. Following this statement is a series of reports showing each fund separately but showing the same columns as the combined summary for comparative purposes.

Revenues- As with the Fund Summary section, Revenues consists of a combined Revenue Detail report followed by individual Revenue Detail by Fund pages. As with the Combined Fund Summary report, the 2012-13 Approved Budget column in the Combined Revenue Detail report ties to the previous Combining Fund Summary.

Expenditures- Like the previous two sections, this section starts with a Combined Expenditures report showing all funds combined, followed by each individual Location Summary report, and then by object level reports by Fund. Also like the previous combined statements, the 2012-13 Approved Budget column in the Combined Expenditure Summary ties to the Combining Expenditure Summary report above.

Interfund Transfers and Debt Service- These sections complete the budget picture by providing additional information describing the purpose for the various transfers/charges as well as details on the District's debt issues. Once again, the 2012-13 Approved Budget columns contained in these pages tie to the previous Combining Fund Summary Statement.

This page intentionally left blank.

Corbett School District 2012-2013 Budget Message

The goal of Corbett School District is to foster intellectual development, social awareness and civic responsibility among the members of our school community.

The Budget Document:

This document is intended to serve as a financial plan for both receipts and expenditures for the 2012-2013 fiscal year. To assist in preparing the plan and to help others to understand the document, it contains: 2010-11 audited figures, the 2011-2012 budgeted figures, and the proposed 2012-2013 figures.

The Financial Policies of the District:

The District Budget is a planning document. It is the intention of Corbett School District to plan for the future and to develop a budget document that is driven by our District goals, our programming decisions and our student enrollment projections. While we recognize the value of maintaining a reasonable level of cash reserves, we are committed to bringing to bear all of the District's resources in support of the upcoming school year.

Important Fixtures of the Budget Document and Reasons for Changes from Previous Year in Appropriation and Revenue:

We anticipate a beginning fund balance of \$621,000.00 in general fund for Fiscal Year 2013. The budget was prepared by aligning our revenue projections with the State of Oregon's Official Revenue Estimate (April 2012) and adjusting the enrollment projection to reflect actual enrollment to date, as well projected enrollment based upon opening Springdale School if that action is taken. Our revenue projections are conservative.

Corbett Charter School:

Corbett Charter School will add approximately 475 students to the district's total ADM, generating approximately \$2,700,000.00 in revenues. These revenues are paid out to Corbett Charter School. Corbett Charter School pays its entire teaching and administrative staff as well as rent and administrative fees to the District.

Corbett School without Springdale

Based on current enrollment, a projected enrollment of 39 kindergarten students next year, and current transfer student numbers that will be accepted via HB 3681 Corbett School expects to have an ADMr of 652. This represents a decrease of 13 students over the current year. Class sizes in grades K-2 are projected to be 26.8, grades 3-5, 27.2, and 26.8 in grades 6-8.

Corbett School with Springdale

If Corbett School District opens the Springdale campus based upon the number of applicants likely to be admitted Corbett School would expect to have an ADMr of 774. Class size in grades K-2 are projected to drop to 25, grades 3-5 to 23.7, and 6-8 to 25.6 if students were distributed equally between Springdale and the main campus.

The opening of the Springdale campus will require it to be staffed. Staff needed to operate the facility include teachers 5 FTE, music teacher 0.5 FTE, office support 1 FTE, custodian 0.5 FTE, classroom instructional assistant 0.8 FTE, administration 0.5 FTE. Most of these positions will benefit both the students at the Springdale site as well as on the main campus to include adding additional music, additional office support, additional custodial support, as well as reducing class size across all grade levels K-8 provided students are distributed equally.

Elementary Budgeting without Springdale

The proposed budget assumes an elementary enrollment of 265 students (246 ADMr with Kindergarten students counting half for the purpose of state funding) and an elementary staff of 11 licensed teachers including music. Administrative staffing will be 0.5. All elementary students will continue to receive music education at the current level. We will maintain full-time health care services in the elementary building.

Kindergarten will be provided on a part time basis commensurate with the funding level we receive for kindergarten from the state (0.5ADM/student). However, we will offer a “Fee for Service” full time kindergarten option. This option is budgeted to generate about \$80,000 in revenue.

Also, this budget reflects an additional \$45,000 in revenue from a “Fee for Service” pre-school option that will be offered out of the grade school building.

Secondary Budgeting without Springdale

The proposed budget assumes a secondary enrollment of 406 (6 through 12) students and a secondary staff of 15 licensed teachers. Administrative staffing will be unchanged at 0.87.

Extracurricular Budgeting:

The Corbett School District Board of Directors views extracurricular activity as an important part of our responsibility to address the needs of the whole child. Athletic programs, extracurricular activities and field trips will be funded at current levels.

Transportation Budgeting:

We propose a transfer of \$35,000 to the bus purchase fund this year. It currently stands at \$58,872.00. With the addition of \$35,000 we expect to purchase a new bus at the first of July with these funds.

Food Service Budgeting:

Maintain current staffing levels with a modest increase in food fees. We are budgeting to transfer \$24,000 from the general fund into the food service fund.

Administrative Budgeting:

Maintain 1.87 FTE for K-12 and Special Education administration.

Capital Improvement Budgeting:

We expect to spend \$980,000 QSCB proceeds (\$325,000 of which will likely be spent in the 2012 fiscal year) on the construction of Springdale School. Further, \$93,000 is budgeted to be spent on the High School Septic System upgrade required to comply with effluent monitoring.

In addition to these expenditures we are budgeting to add \$50,000 to the capital improvement budget in anticipation of needed repairs to the MPB roof.

General Fund Contingency Budgeting with and without Springdale:

The amount budgeted for contingency will be \$378,000.00 with an un-appropriated ending fund balance of \$300,000.00, resulting in \$57,000.00 more cash on hand at the end of the year than at the beginning.

The amount budgeted for contingency if Springdale is open will be \$486,000.00 with an un-appropriated ending fund balance of \$300,000.00, resulting in \$165,000.00 more cash on hand at the end of the year than at the beginning.

As always, I look forward to your questions and/or recommendations concerning the budget for next year.

Respectfully Submitted,

Randy Trani Ed.D
Superintendent
Budget Officer

Funds

Definition of a Fund

Governmental accounting systems are organized and operated on a fund basis. The diverse nature of governmental operations precludes recording all financial transactions in a single accounting entity. Instead, the required accounts are organized on the basis of independent funds. Comparing fund accounting with private sector accounting, each fund would equate to an independent business, with a separate set of records owned by one entity, the district.

Types of Funds used by School Districts

Governmental Funds - focus is on financial position or changes in financial position

Proprietary Funds - activities that are similar to business operations in the private sector

Fiduciary Funds - account for assets held by a district as trustee or agent

Account Groups – general fixed assets and long term liabilities of proprietary and trust funds are accounted for here

Funds used by Corbett School District

Governmental Funds

100 General Fund

Records the day-to-day financial operation of the school district

200 Special Revenue Fund

Food Services

State, Local and Federal Grants

Early Retirement

Bus Replacement

300 Debt Service Fund

Records retirement of 1994 and 1998 government general obligation bonds

400 Capital Improvement Fund

Funds for capital improvement expenditures

Proprietary Funds

None

Fiduciary Funds

700 Student Body Funds

Account Groups

800 General Fixed Assets

Revenue Dimensions

Sources

Revenues (resources) are classified by type and source for various funds of the District. They are divided in to five major areas:

➤ **1000 Local Source**

- Revenues from local sources are the amount of money produced within the boundaries of the Local School District and available to the Local School District for its use. Money collected in the same amount by another governmental unit as an agent for the local school district is recorded as revenue from local source. Source comes primarily from local taxes and earnings on investments.

➤ **2000 Intermediate Source**

- Revenue received as grants by the district, which can be used for any legal purpose desired by the district without restriction. Separate accounts may be maintained for general source grants-in-aid, which are not related to specific revenue sources of the intermediate governmental unit and for those assigned to specific sources of revenue as appropriate.

➤ **3000 State Source**

- The major source of state revenue is from the state school support grant apportionment, which is based on a statewide funding formula. The General Purpose Grant formula is based on resident average daily membership (ADM) with an additional weighting factor for ESL, IEP, pregnant & parenting students, remote school correction and an adjustment for poverty. The weighted total ADM is multiplied by an additional \$25 per year if you exceed the average teacher experience, then a funding ratio is applied. At this point 70% of the total transportation expenses are added back in to the total formula. Lastly the district receives a total computed estimate of local revenues to be received that is subtracted from the General Purpose Grant providing the State School Fund Grant.

➤ **4000 Federal Source**

- Revenues from federal sources are collected by the federal government and distributed to local school districts in amounts that differ in proportion from those which were collected within such local school districts. The funds are distributed directly to the school district by the federal government or through some intervening agency such as the state.

➤ **5000 Other Sources**

- Revenues are a combination of prior years ending cash balance and transfers from other funds.

Expenditure Dimensions

Function Codes:

Expenditures (requirements) are classified by function, this describes the activity for which a service or material object is acquired. Functions are divided into seven major areas:

- **1000 Instruction**
 - Instruction is described as activities dealing directly with the teaching of students, or the interaction between teacher and students. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, or in other learning situations such as those involving co-curricular activities
- **2000 Support Services**
 - Those are services which provide administrative, technical, personal, and logistical support to facilitate and enhance instruction.
- **3000 Enterprise and Community Services**
 - Activities concerned with operations that are financed and operated in a manner similar to private business enterprises where the stated intent is that the cost of providing goods and services to the students are financed or recovered primarily through user charges and community programs.
- **4000 Facilities Acquisition and Construction**
 - Activities concerned with the acquisition of land and building; major remodeling and construction of buildings and major additions to buildings; initial installation or extension of service systems and other built-in equipment; and major improvements to sites. Major capital expenditures that are eligible for general obligation bonding are recorded here.
- **5000 Debt Service/Interagency Fund Transactions**
 - This is servicing the debt of the district and conduit-type transfers from one fund to another fund.
- **6000 Contingency**
 - Expenditures that cannot be foreseen or planned in the budget process because of an occurrence of an unusual or extraordinary event.
- **7000 Unappropriated Ending Fund Balance**
 - An estimate of funds needed to maintain operations of the school district from July 1 of the ensuing fiscal year and the time when sufficient new revenues become available to meet cash flow needs of the fund. No expenditure shall be made from the unappropriated ending fund balance in the year in which it is budgeted.

Object Codes:

The Object is the service or commodity bought. These categories are also divided into sub-objects for more detailed accounting. Objects are divided into eight major areas:

➤ **100 Salaries**

- Amounts paid to employees of the district who are considered to be in positions of a permanent nature or hired temporarily, including personnel substituting for those in permanent positions. This includes gross salary for personal services rendered while on the payroll of the district.

➤ **200 Associated Payroll Costs**

- Amounts paid by the district on behalf of employees; these amounts are not included in the gross salary, but are over and above. Such payments are fringe benefit payments and while not paid directly to employees, nevertheless are part of the cost of salaries and benefits. Examples are: (1) group health and life insurance (2) contributions to public employees retirement system (3) social security (4) workers' compensation and (5) unemployment insurance..

➤ **300 Purchased Services**

- Services, which, by their nature, can be performed only by persons or firms with specialized skills and knowledge. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided. Included are expenses for tuition, laundry services, repairs, rentals, utilities, postage and the services of auditors, lawyers, consultants, etc.

➤ **400 Supplies and Materials**

- Amounts paid for material items of an expendable nature that are consumed, worn out, or deteriorated by use.

➤ **500 Capital Outlay**

- Expenditures for the acquisition of fixed assets or additions to fixed assets. They are expenditures for land or existing buildings; improvements of grounds; construction of buildings; additions to buildings; remodeling of building; initial/additional equipment; and replacement of equipment.

➤ **600 Other Objects**

- Amounts paid for goods and services not otherwise classified above. This includes expenditures for the retirement of debt, the payment of interest on debt, payments to a housing authority and the payment of dues and fees.

➤ **700 Transfers**

- This object category does not represent a purchase; rather it is used as an accounting entity to show that funds have been handled without having goods and services rendered in return. Included here are transactions for interchanging money from one fund to the other and for transmitting flow-through funds to the person or agency.

➤ **800 Other Uses of Funds**

- Amounts set aside for operating contingencies for expenditures, which cannot be foreseen or for amounts to be reserved for next year.
