INDEPENDENT AUDITORS' REPORT

THIS PAGE INTENTIONALLY LEFT BLANK

To the School Board
Corbett School District No. 39
Multnomah County, Oregon

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Corbett School District No. 39 (the District) and Corbett Charter School Association, its discretely presented component unit, Multnomah County, Oregon, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2015, and the respective change in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 13 to the financial statements, during the year ended June 30, 2015 the Districted adopted new accounting guidance, GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Funding Progress for Other Postemployment Benefits and Oregon Public Employee Retirement System information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance

Additionally, accounting principles generally accepted in the United States of America require that the General Fund budgetary comparison be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General Fund budgetary comparison are fairly stated in all material respects in relation to the basic financial statements taken as a whole

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as defined in the table of contents, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Reports on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 28, 2015, on our consideration of the District's internal control over financial reporting and compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CORBETT SCHOOL DISTRICT NO. 39
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
For the year ended June 30, 2015

Our discussion and analysis of Corbett School District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2015. Please read it in conjunction with the District's Financial Statements, which follows this MD&A.

NEW ACCOUNTING STANDARDS IMPLEMENTED

The District implemented Governmental Accounting Standards Boards (GASB) Statement 68, which reflects financial transactions not previously reported in the District financial statements. The new GASB statements require a liability for pension obligations, known as the net pension liability (NPL), to be recognized on the balance sheets of the plan of the participating employers'. Similarly, a pension expense (PE) will be recognized on the income statement. The result of implementing GASB 68 reflects negatively on the District's net position. The recent Oregon Supreme Court rulings overturning the 2013 PERS reforms substantially increased the aforementioned liability.

Readers are encouraged to examine the fund balance and the total net position increase to gain an accurate picture of the District's solvency and trended financials in comparison to last year.

FINANCIAL HIGHLIGHTS

- At June 30, 2015, the District's assets exceeded its liabilities by \$8,920,749.
- The District's net position increased by \$5,625,846 during 2014-15.

OVERVIEW OF THE FINANCIAL STATEMENTS

The School District's annual report consists of a series of financial statements that show information for the District as a whole. The Statement of Net Position and the Statement of Activities provides information about the activities of the District as a whole and presents a longer-term view of the District's finances. Our fund financial statements are included later in the financial report. For our governmental activities, these statements tell how we financed our services in the short-term as well as what remains for future spending. Fund statements also may give you some insights into the District's overall financial health. Fund financial statements also report the District's operations in more detail than the government-wide financial statements by providing information about the District's most significant fund, the general fund.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

These statements present information on the District's finances in a manner similar to private sector businesses. One of the most important questions asked about the District is, "Is the District as a whole better off or worse off financially as a result of the year's activities?" The Statement of Net Position and Statement of Activities report information on the District as a whole and its activities in a way that helps answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position shows the District's assets and liabilities, with the difference between the two reported as net position. All capital assets and long-term liabilities, and general government functions, are shown in the Statement of Net Position.

The Statement of Activities shows revenues, expenses, and the change in net position for the District as a whole. Revenues and expenses attributable to specific functions are segregated from general revenues, to display the extent to which general revenues support each function.

FUND FINANCIAL STATEMENTS

Governmental funds account for the same functions as are reported as governmental activities in the government-wide financial statements. The governmental fund reporting focuses on how money flows in and out of funds and the balances left at year end that are available for spending. They are reported using the accounting method called "modified accrual" accounting, which measures cash and all other financial assets that can be readily converted to cash. This information is essential for preparation of and compliance with annual budgets. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliations following the government statements. The notes to the financial statements provide additional information that is essential to a complete understanding of the data provided in the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Total assets, liabilities and net position were as follows:

Net Position at Fiscal Year-End For the Year Ended June 30, 2015 and 2014				
	<u>Governmental Activities</u>		<u>Increase (Decrease)</u>	<u>Change</u>

Net position - June 30	<u>\$ 8,920,749</u>	<u>\$ 5,920,798</u>	<u>\$ 2,999,951</u>	50.7%

FUND FINANCIAL ANALYSIS

The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Unreserved fund balance measures the District's net resources available for appropriation in the next fiscal year. As of June 30, 2015, total fund balance of the governmental funds was \$3,314,696 (governmental fund balance includes unassigned balance of \$3,052,471). These amounts are available to use, in accordance with applicable restrictions on the nature of the expenditures.

BUDGET VARIATIONS IN THE GENERAL FUND

During the 2014-15 fiscal year the District received an additional \$2.1 million to assist with operational changes resulting from the reduction and partial absorption of Corbett Charter School ADM.

CAPITAL ASSETS

At June 30, 2015 the District had \$7,148,225 invested in broad range of capital assets, including land, building, equipment and vehicles. The changes in capital assets for 2014-15 are due to the depreciation of capital assets, as well as the purchase of a bus.

DEBT ADMINISTRATION

As of June 30, 2015 the District had \$2,210,784 in long term debt. The district's debt consists of a Certificates of Participation (2001 and 2012), a QSCB Loan (2012), and a SELP Loan from the Oregon Department of Energy (2012), as well other post-employment benefits.

2014-15 BUDGET

The budget for 2014-15 has total appropriations of \$13,512,861. Operating resources and uses are expected to remain flat in the current year.

REQUESTS FOR INFORMATION

Our financial report is designed to provide our taxpayers, parents, teachers, students, investors and creditors with an overview of the District's finances. If you have any questions about this report or need any clarification of information please contact Corbett School District, as follows:

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities

Year Ended June 30, 2015

Net Change in Fund Balance	\$	2,207,626
<p>Amounts reported for governmental activities in the statement of activities are different because:</p>		
<p>Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:</p>		
Capital Asset Additions, Net	\$ 378,315	
Depreciation Expense, Net	<u>(269,664)</u>	108,651
<p>Long-term debt proceeds are reported as other financing sources while payments to fiscal agent are reported as other financing uses in governmental funds. In the Statement of Net Position, however, issuing long-term debt increases liabilities while payments to fiscal agent increases assets. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Position. This the amount by which repayments exceeded proceeds:</p>		
		128,129
<p>(Increases) decreases in proportionate share of net pension asset/liability reported in the Statement of Activities do not provide for or require the use of current financial resources and therefore are not reported as revenues or expenditures in the governmental funds.</p>		
		3,162,072
<p>Compensated absences and early retirement obligations are recognized as an expenditure in the governmental funds when they are paid. In the Statement of Activities compensated absences and early retirement obligations are recognized as an expenditure when earned.</p>		
Accrued Vacation	8,420	
Early Retirement Stipend	3,600	
Early Retirement Obligation	<u>(34,526)</u>	(22,506)
<p>Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds, and are instead recorded as deferred revenue. They are, however, recorded as revenues in the Statement of Activities</p>		
		<u>41,874</u>
Change in Net Position	\$	<u><u>5,625,846</u></u>

NOTES TO THE FINANCIAL STATEMENTS

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the district have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the district's accounting policies are described below.

Reporting Entity

Corbett School District No. 39 is a municipal corporation governed by an elected seven-member board. The District qualifies as a primary government since it has a separate elected body, is a legally separate entity, and is fiscally independent. The Corbett Charter School Association is considered a component unit of Corbett School District No. 39. Detailed information about the Corbett Charter School Association financial statements is contained in the component unit's financial report of the Corbett Charter School Association, which is issued separately, and may be obtained from their administrative offices.

Basis of Presentation - Fund Accounting

Government-Wide Financial Statements (GWFS)

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies, or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues not classified as program revenues, including property taxes and state support, are presented as general revenues.

Net position is reported restricted when constraints placed on the net position use are either externally restricted, imposed by creditors (such as grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

Fund Financial Statements

The fund financial statements provide information about the District's funds including those of a fiduciary nature. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major governmental funds:

General Fund - This fund accounts for the financial operations of the District not accounted for in any other fund. Principal sources of revenue are state sources, property taxes and earnings on investments. Expenditures are made for instruction and support services.

Financial statements for periods beginning after June 15, 2010 must report as Special Revenue funds only those which have a substantial portion of revenue inflows from restricted or committed revenue sources. The following funds are combined into the General Fund because the primary revenue source is transfers from the General Fund or there is no revenue to report.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements (Continued)

Bus Replacement Fund - The Bus Replacement Fund accounts for all financial resources and expenditures related to the purchase of new buses. The principal revenue source is a transfer in from the General Fund.

Early Retirement Fund - The Early Retirement Fund accounts for all financial resources and expenditures related to the retirees. The principal revenue source is a transfer from the General Fund.

Measurement Focus and Basis of Accounting

Government-wide are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

Budgets

A budget is prepared and legally adopted for each governmental fund type and the fiduciary fund on the modified accrual basis of accounting in the main program categories as required by Oregon Local Budget Law. The budgets for all budgeted funds are adopted on a basis consistent with generally accepted accounting principles except that the property taxes received after year-end are not considered budgetary resources in the funds.

The District begins its budget process early in each fiscal year with the establishment of the budget committee. Recommendations are developed through late winter with the budget committee approving the budget in early spring. Public notices of the budget hearing are generally published in spring with a public hearing being held approximately three weeks later. The Board may amend the budget prior to adoption. However, budgeted expenditures for each fund may not be increased by more than ten percent without re-publication. The budget is then adopted, appropriations are made, and the tax levy declared no later than June 30th.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus and Basis of Accounting (Continued)

Budgets (Continued)

Expenditure budgets are appropriated at the following levels for each fund: Instruction, Support Services, Enterprise and Community Services, Facilities Acquisition and Construction, Other Uses - Debt Service and Interfund Transfers, and Operating Contingency.

Expenditures cannot legally exceed the adopted appropriation levels except in the case of grants which could not be estimated at the time of budget adoption. Appropriations lapse at the fiscal year-end. Management may amend line items in the budget without Board approval as long as appropriation levels (the legal level of control) are not changed. Supplemental appropriations may occur if the Board approves them due to unforeseen circumstances that could not be determined at the time the budget was adopted. Budget amounts shown in the basic financial statements reflect the original budgeted appropriation amounts and final budget amounts for a supplemental budget approved by the board.

Cash and Investments

The District's cash and cash equivalents consist of cash on hand, demand deposits, savings deposits, money market deposits, investments in the State of Oregon Treasurer's Local Government Investment Pool (LGIP) and cash with county treasurers.

The District's investments consist of a LGIP account. These investments are stated at cost, which approximates fair value. Fair value of the LGIP is the same as the District's value in pool shares. The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP.

Property Taxes Receivable

Uncollected real and personal property taxes are reflected on the statement of net assets and the balance sheet as receivables. Uncollected taxes are deemed to be substantially collectible or recoverable through liens. All property taxes receivable are due from property owners within the District.

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

Grants

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures are recorded as unearned revenue on the statement of net position and the balance sheet.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Supply Inventories

School food and other cafeteria supplies are stated at average invoice cost. Commodities purchased from the United States Department of Agriculture in the Food Service Fund are included in the District's inventories at USDA wholesale value. The District accounts for the inventory based on the consumption method. Under the consumption method, inventory is recorded when purchased and expenditures/expenses are recorded when inventory items are used. Donated commodities consumed during the year are reported as revenues and expenditures.

Capital Assets

Capital assets are recorded at original cost or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Interest incurred during construction is not capitalized. The cost of routine maintenance and repairs that do not add to the value of the assets or materially extend asset lives are charged to expenditures as incurred and not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives: Building and Improvements over 10 to 50 years, and Vehicles and Equipment over 5 to 30 years.

Interfund Transactions

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. This includes interfund transfers occurring within governmental activities and interfund receivables and payables.

Interfund Payables and Receivables

The receipt and payment of monies through one central checking account, as well as transfers between funds, result in interfund payables and receivables until cash is transferred from one fund to the other. These amounts represent current assets and liabilities and are reported as due to or due from other funds.

Retirement Plans

Most of the District employees participate in Oregon Public Employees Retirement System (PERS). For the purpose of measuring the pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PERS and addition to/deductions from PER's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Post Employment Benefits

Eligible administrative and certified employees who elect early retirement are entitled to either payment of group medical premiums or receiving a stipend up to a specified maximum limit for a specified number of months. Such costs are recorded as expenses in the Early Retirement Fund and funded as premiums become due or stipends paid.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All unused vacation pay is accrued when earned in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they are paid as a result of employee resignation or separation.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the life of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

Net position comprise the various net earnings from operations, non operating revenues, expenses and contributions of capital. Net positions are classified in the following three categories:

Net invested in capital assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted – consists of external constraints placed on asset use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net positions – consists of all other assets that are not included in the other categories previously mentioned.

Fund Equity

Government fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, or unassigned. Nonspendable fund balance cannot be spent because of its form. Restricted fund balance has limitations imposed by creditors, grantors, or contributor or by enabling legislation or constitutional provisions. Committed fund balance is a limitation imposed by the District Board through approval of resolutions. Assigned fund balance is a limitation imposed by a designee of the District's Board. Unassigned fund balance is the net resources in excess of what can be properly classified in one of the above four categories. Negative unassigned fund balance in other governmental funds represents excess expenditures incurred over the amounts restricted, committed, or assigned to those purposes.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purpose for which amounts in any of those unrestricted fund balance classifications can be used.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has two items that qualifies for reporting in this category. The first item is related to pensions reported in the district-wide statement of net position. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability and difference during the measurement period between the District's contributions and its proportionate share of total contributions to the pension system not included in pension expense. This amount is deferred and amortized over 5.6 years. The last item is the District contributions to the pension system subsequent to the measurement date.

In addition to liabilities, the district-wide statement of net position will report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. The first arises only under a modified accrual basis of accounting and is reported as unavailable revenue – property taxes on the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The second item is related to pensions reported in the district-wide statement of net position. This represents the effect of the District's proportionate share of the net difference between projected and actual earnings on investments. This amount is deferred and amortized a closed five year period.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

2. CASH AND INVESTMENTS

Deposits

Deposits with financial institutions include bank demand and money market deposits. The balances in these accounts according to the District record total \$764,256 as of June 30, 2015. The bank statement records reflect a balance of \$1,061,022 at year end.

Custodial Credit Risk – Deposits. Custodial credit risk for deposits is the risk that, in the event of bank failure, the District's deposits may be lost. Deposits with financial institutions are comprised of bank demand deposits. The combined total bank balance is \$1,061,022. Of these deposits, \$250,000 was covered by federal depository insurance.

As required by Oregon Revised Statutes, deposits in excess of federal depository insurance were held at qualified depository for public funds. All qualified depositories for public funds are included in the multiple financial institution collateral pool that is maintained by and in the name of the Office of the State Treasurer. As a result the District has no exposure for custodial credit risk for deposits with financial institutions at year end.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

2. CASH AND INVESTMENTS (CONTINUED)

Investments

The District's policy is to follow state statutes governing cash management. Statutes authorize the District to invest in banker's acceptances, time certificates of deposit, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

The State Treasurer's Local Government Investment Pool is not registered with the U.S. Securities and Exchange Commission as an investment company. The Oregon Revised Statutes and the Oregon Investment Council govern the state's investment policies. The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board (OSTFB), which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund was in compliance with all portfolio guidelines at June 30, 2015.

Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. There is no material difference between the fair value of the District's position in the State Treasurer's Local Government Investment Pool and the value of the pool shares at June 30, 2015. There were no known violations of legal or contractual provisions for deposits and investments during the fiscal year.

Cash and Investments at June 30, 2015 (recorded at fair value) consist of:

Demand Deposits		\$ 764,256
Investments		<u>3,064,791</u>
		<u>\$ 3,829,047</u>

The District had the following investments and maturities:

Investment Type	Fair Value	Investment Maturity (in months)		
		Less than 3	3 - 17	18- 59
State Treasurer's Investment Pool	\$ 3,064,791	\$ -	\$ 3,064,791	\$ -
Total	\$ 3,064,791	\$ -	\$ 3,064,791	\$ -

Interest Rate Risk

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that has been submitted to and reviewed by the OSTFB. The District does not have any investments that have a maturity date.

Credit Risk

Oregon Revised Statutes does not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is an open-ended, no-load diversified portfolio. The fund is not registered with the U.S. Securities and Exchange Commission as an investment company and is not rated.

Concentration of Credit Risk

At June 30, 2015, the District had 100% of total investments in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

3. ACCOUNTS/GRANTS RECEIVABLE

Special revenue fund grants receivable is comprised of claims for reimbursement of costs under various federal and state grant programs. Amounts are periodically reviewed for collectability. At June 30, 2015, no allowance for doubtful accounts is considered necessary.

4. CAPITAL ASSETS

The changes in capital assets for the year ended June 30, 2015 are as follows:

	Balance July 1, 2014	Additions	Deletions	Balance June 30, 2015
Capital Assets not being depreciated:				
Land (non depreciable)	\$ 222,277	\$ -	\$ -	\$ 222,277
Capital assets being depreciated:				
Buildings and improvements	10,471,735	169,359	-	10,641,094
Equipment	288,352	6,997	-	295,349
Vehicles	897,803	201,960	-	1,099,763
Total capital assets being depreciated	<u>11,657,890</u>	<u>378,316</u>	<u>-</u>	<u>12,036,206</u>
Less accumulated depreciation for:				
Buildings and improvements	(4,068,536)	(217,678)	-	(4,286,214)
Equipment	(154,625)	(12,217)	-	(166,842)
Vehicles	(617,432)	(39,770)	-	(657,202)
Total accumulated depreciation	<u>(4,840,593)</u>	<u>(269,665)</u>	<u>-</u>	<u>(5,110,258)</u>
Total capital assets being depreciated, net	<u>6,817,297</u>	<u>108,651</u>	<u>-</u>	<u>6,925,948</u>
Total capital assets, net	<u>\$ 7,039,574</u>	<u>\$ 108,651</u>	<u>\$ -</u>	<u>\$ 7,148,225</u>

Depreciation was allocated to the functions as follows:

Instruction	\$ 186,069
Supporting services	72,809
Community services	<u>10,787</u>
Total	<u>\$ 269,665</u>

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

5. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2015 is as follows

	Due from Other Funds	Due to Other Funds
Major Governmental Funds		
General Fund	\$ 238,346	\$ -
Federal Programs	-	238,346
	\$ 238,346	\$ 238,346
Totals	\$ 238,346	\$ 238,346

The outstanding balances between funds results from grant awards which require the expenditure of funds prior to reimbursement, causing a negative cash balances until reimbursement is received. This transaction records negative cash balances.

Interfund transfers were made to provide resources as follows:

	Transfers In	Transfers Out
General Fund	\$ 14,000	\$ 255,000
Capital Projects Fund	60,000	-
Energy Projects Fund	-	14,000
Bus Replacement Fund	177,000	-
Early Retirement Fund	18,000	-
	\$ 269,000	\$ 269,000
Totals	\$ 269,000	\$ 269,000

6. PENSION PLAN

Plan Description

The District participates in the Oregon Public Employees Retirement System (OPERS), a cost-sharing multiple-employer defined benefit plan. OPERS provides retirement, disability, and death benefits to plan members and their beneficiaries.

All benefits of OPERS are established by the Oregon Legislature pursuant to Oregon Revised Statutes (ORS) Chapters 238 and 238A. The plan complies with Internal Revenue Service rules prescribed in 401(a). The Oregon Legislature has delegated the authority to the Public Employees Retirement Board (PERB) to administer and manage the system. OPERS issues a publicly available financial report that can be obtained at: http://www.oregon.gov/pers/Pages/section/financial_reports/financials.aspx. OPERS prepares their financial statements in accordance with GASB statements and generally accepted accounting principles. The accrual basis of accounting is used for all funds. Contributions are recognized when due, pursuant to legal (or statutory) requirements. Benefits are recognized in the month they are earned and withdrawals are recognized in the month they are due and payable. Investments are recognized at fair value, the amount at which financial instruments could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

6. PENSION PLAN (CONTINUED)

There are currently two programs within OPERS, with eligibility determined by the date of employment. Those employed prior to August 29, 2003 are OPERS Program members, and benefits are provided based on whether a member qualifies for Tier One or Tier Two described below. Those employed on or after August 29, 2003 are Oregon Public Service Retirement Plan (OPSRP) Program members. OPERS is a hybrid retirement plan with two components: 1) the Pension Program (defined benefit; established and maintained as a tax-qualified governmental defined benefit plan), and 2) the Individual Account Program (IAP) (defined contribution; established and maintained as a tax-qualified governmental defined contribution plan).

The 1995 Legislature created a second tier of benefits for those who became OPERS Program members after 1995 but before August 29, 2003. The second tier does not have the Tier One assumed earnings rate guarantee.

Beginning January 1, 2004, all employees who were active members of OPERS became members of the OPSRP IAP Program. OPERS plan member contributions (the employee contribution, whether made by the employee or "picked-up" by the employer) go into the IAP portion of OPSRP. OPERS plan members retain their existing OPERS accounts; however, member contributions after January 1, 2004 are deposited in the member's IAP, not into the member's OPERS account.

a. Tier One/Tier Two Retirement Benefit Plan (Chapter 238).

Pension Benefits

The PERS retirement allowance is payable monthly for life. It may be selected from thirteen retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. General service employees may retire after reaching age 55. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Tier Two members are eligible for full benefits at age 60.

The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

Death Benefits

Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- the member was employed by a PERS employer at the time of death,
- the member died within 120 days after termination of PERS-covered employment,
- the member died as a result of injury sustained while employed in a PERS-covered job, or
- the member was on an official leave of absence from a PERS-covered job at the time of death.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

6. PENSION PLAN (CONTINUED)

Disability Benefits

A member with ten or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 when determining the monthly benefit.

Benefit Changes after Retirement

Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2015 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

b. OPSRP Pension Program (Chapter 238A)

Pension Benefits.

The OPSRP Pension Program (ORS Chapter 238A) provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. For general service employees benefits are calculated with the following formula: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the OPSRP Pension Program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits

Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

Disability Benefits

A member who has accrued ten or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes after Retirement

Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2015 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

6. PENSION PLAN (CONTINUED)

Contributions

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans.

Employer contribution rates during the period were based on the December 31, 2011 actuarial valuation as subsequently modified by 2013 legislated changes in benefit provisions. The rates based on a percentage of payroll, first became effective July 1, 2013. The District's contractually required contribution rate for the year ended June 30, 2015 was 22.33% of eligible payroll for Tier 1/Tier 2 members and 17.64% of eligible payroll for OPSRP members. Employer contributions for the year ended June 30, 2015 were \$1,133,205, excluding amounts to fund employer specific liabilities.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to Pensions

At June 30, 2015, the District reported a net pension asset of \$1,504,660 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2012. The District's proportion of the net pension liability was based on the District's projected long-term contribution effort to the Plan with the total projected long-term contribution effort of all employers, actuarially determined. At June 30, 2014 the District's proportion was .066%.

For the year ended June 30, 2015, the District recognized a negative pension expense of \$3,162,072. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred (Inflows) of Resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ (2,177,539)
Changes in proportion and differences between employer contributions and proportionate share of contributions	120,575	-
District contributions subsequent to the measurement date	1,088,481	-
Net deferred outflow (inflow) of resources	\$ 1,209,056	\$ (2,177,539)

\$1,088,481 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported by the District as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in subsequent years as follows

CORBETT SCHOOL DISTRICT NO. 39

6. PENSION PLAN (CONTINUED)

Year Ended June 30,	Amount
2016	\$ (692,353)
2017	(692,353)
2018	(692,353)
2019	20,095
Total	\$ (2,056,964)

Actuarial Methods and Assumptions:

Actuarial Valuations

The employer contribution rates effective July 1, 2013, through June 30, 2015, were set using the projected unit credit actuarial cost method.

For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Actuarial Assumptions

The total pension liability in the December 31, 2012 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

Valuation Date	December 31, 2012 rolled forward to June 30, 2014.
Experience Study Report	2012, published September 18, 2013
Actuarial cost method	Entry Age Normal
Amortization method	Amortized as a level percentage of payroll as layered amortization bases over a closed period; Tier One/Tier Two UAL is amortized over 20 years and OPSRP pension UAL is amortized over 16 years.
Asset valuation method	Market value of assets
Actuarial assumptions:	
Inflation rate	2.75 percent
Investment rate of return	7.75 percent

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

6. PENSION PLAN (CONTINUED)

Projected salary increases	3.75 percent overall payroll growth; salaries for individuals are assumed to grow at 3.75 percent plus assumed rates of merit/longevity increases based on service
Mortality	<p>Healthy retirees and beneficiaries: RP-2000 Sex-distinct, generational per Scale AA, with collar adjustments and set-backs as described in the valuation.</p> <p>Active members: Mortality rates are a percentage of healthy retiree rates that vary by group, as described in the valuation.</p> <p>Disabled retirees: Mortality rates are a percentage (65% for males, 90% for females) of the RP-2000 static combined disabled mortality sex-distinct table.</p>

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2012 Experience Study which reviewed experience for the four-year period ending on December 31, 2012

Discount Rate

The discount rate used to measure the total pension liability was 7.75 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Depletion Date Projection

GASB 67 generally requires that a blended discount rate be used to measure the Total Pension Liability (the Actuarial Accrued Liability calculated using the Individual Entry Age Normal Cost Method). The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan's Fiduciary Net Position (fair market value of assets) is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/A or higher) municipal bond rate must be used for periods where the Fiduciary Net Position is not projected to cover benefit payments and administrative expenses.

Assumed Asset Allocation

Asset Class/Strategy	Low Range	High Range	OIC Target
Cash	0.0	3.0	0.0
Debt Securities	15.0	25.0	20.0
Public Equity	32.5	42.5	37.5
Private Equity	16.0	24.0	20.0
Real Estate	9.5	15.5	12.5
Alternative Equity	0.0	10.0	10.0
Opportunity Portfolio	0.0	3.0	0.0
Total			100.0

Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2013 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the oic long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Asset Class	Target	Compound Annual Return (Geometric)
Core Fixed Income	7.20%	4.50%
Short-Term Bonds	8.00	3.70
Intermediate-Term Bonds	3.00	4.10
High Yield Bonds	1.80	6.66

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

6. PENSION PLAN (CONTINUED)

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate.

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage point higher (8.75% percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
District's proportionate share of the net pension liability (asset)	\$ 3,186,340	\$ (1,504,660)	\$ (5,472,159)

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued OPERS financial report. The effect of OPERS on the District's net position has been determined on the same basis used by OPERS.

Changes in Plan Provisions Effecting the Roll Forward

Senate Bill 822, signed into law in May 2013, eliminated the SB 656/HB 3349 tax remedy payments for benefit recipients who are not subject to Oregon income tax, because they do not reside in Oregon, and limited the 2013 post-retirement COLA to 1.5% of annual benefit.

Senate Bill 861, signed into law in October 2013, limited the post-retirement COLA for years beyond 2013 to 1.25% on the first \$60,000 of annual benefit and 0.15% on annual benefits above \$60,000.

Senate Bill 862, signed into law in October 2013, makes targeted changes such as allowing garnishment of PERS benefits for convicted felons. These changes do not significantly affect System liabilities and were not reflected in the valuation.

For GASB 67 and 68, the total pension liability must be calculated based on the benefit terms legally in effect as of the relevant fiscal year-end for the plan. Due to the timing of the benefit changes, this means only Senate Bill 822 is reflected in the June 30, 2013 total pension liability, but that the combined effects of Senate Bills 822 and 861 are reflected in the June 30, 2014 total pension liability. The decrease in the total pension liability resulting from Senate Bill 861, measured as of June 30, 2014, created a \$2,423.6 million reduction in System pension liabilities.

Changes Subsequent to Measurement Date

In April 2015, the Oregon Supreme Court decision in *Moro v. State of Oregon* stated that the reduced COLA amounts provided by Senate Bills 822 and 861 (both passed in 2013) only apply to benefits earned after the effective date of the legislation. As a result of this decision, the total pension liability is estimated to increase by \$4,920 million. The District's proportionate share (.066%) of this increase is \$3,265,930. If this change had occurred prior to the measurement date, the District's statement of net position would reflect a net pension liability of \$1,761,270 versus a pension asset of \$1,504,660.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

6. PENSION PLAN (CONTINUED)

Tax Sheltered Annuities

The District offers its employee's tax deferred annuity programs established pursuant to Sections 403(b) and 457(b) of the Internal Revenue Code (the Code). Contributions are made through salary reductions from participating employees up to the amounts specified in the Code. No contributions are required from the District.

7. EARLY RETIREMENT PLAN

When a supervisory/confidential employee qualifies for retirement under the provisions of the Oregon Public Employees Retirement System (PERS), an early retirement program is offered, which provides a monthly payment of one-twelfth of one and one-half percent (1.5%) of the last annual salary for each full year of service to the District to a maximum of twelve percent (12%). These payments shall be paid to the retiree for a maximum period of forty-eight (48) months in accordance with the following conditions:

The employee must be retired and receiving benefits under PERS.

Monthly "Early Retirement Payments" shall be terminated as of the end of the calendar month in which the retired employee dies, qualifies for Social Security benefits, or when a total of forty-eight (48) payments have been made, whichever comes first. In the event the employee fails to perform his/her obligation, this agreement becomes null and void. Exceptions may be granted by the Board for circumstances beyond the retiree's control.

In order to qualify for benefits, the employee must have completed at least ten (10) consecutive years of service, in the District.

An employee planning to take early retirement must give notice to the Superintendent at least ninety (90) calendar days prior to his/her retirement date.

Full medical and dental single-party coverage will be provided, not to exceed the rate set in the current certified contract, for the retiree for forty-eight (48) consecutive months. The retiree may continue his/her coverage through the District Plan at his/her own expense until age 65. The retiree will have the option of purchasing additional coverage for his/her spouse.

When a teacher retires under the provisions of PERS, the District shall offer the option of an early retirement program which provides a monthly payment of \$300 for a maximum period of forty-eight (48) months, in accordance with the following conditions:

The teacher must be retired and receiving PERS.

Monthly "Early Retirement Payments" shall be terminated as of the end of the of the calendar month in which the retired employee dies, qualifies for Social Security benefits, or when a total of forty-eight (48) payments have been made, whichever comes first.

In order to qualify for benefits, the teacher must have completed at least ten (10) consecutive years of service, in the District.

An teacher planning to take early retirement must give notice to the Superintendent at least ninety (90) calendar days prior to his/her retirement date.

Full medical and dental single-party coverage will be provided. The teacher will have the option of purchasing additional coverage for his/her spouse.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

7. EARLY RETIREMENT PLAN (CONTINUED)

Alternatively, a teacher eligible under the conditions stated above who is retiring prior to age 58 may elect to receive a monthly stipend only, to be paid over a period of 48 to 96 months as requested by the retiree. The monthly stipend would be calculated as follows:

The single-party medical and dental insurance premium as of the date of retirement plus \$300;
Multiplied by 48:
Divided by number of months (from 48 to 96) requested by the retiree.

As of June 30, 2015, no employee is receiving benefits under the Plan which is paid through the Early Retirement Fund. An annual contribution is made by the General Fund based on the need to fund the benefit. The expense incurred for the year ended June 30, 2015 was \$0. There has not been an actuarial determination as to estimated liabilities related to this plan.

8. LONG-TERM OBLIGATIONS

Certificates of Participation

On February 7, 2012 the District entered into a financing agreement to accept \$1,000,000 of Qualified School Construction Bond (QSCB) proceeds from the Oregon Department of Education. The \$1,000,000 is being used for the remodel of the Springdale School. In addition the District had certificates of participation from 2001 originally issued for \$250,000.

On October 30, 2012, the District entered into a financing agreement to accept \$650,000 of Certificate of participation notes from Oregon School board Association to remodel the Springdale School.

Loans

On November 4, 2011 the District received a loan in the amount of \$583,136 from the State of Oregon Department of Energy through their Small Scale Local Energy Loan Program (SELP). The proceeds from the loan are going to make energy efficient updates through-out the District.

Changes in obligations outstanding are as follows:

	Original Issue	Outstanding July 1, 2014	Issued	Redeemed and Matured	Outstanding June 30, 2015	Interest Rate(s)
2001 Certificate of Participation	\$ 250,000	\$ 115,000	\$ -	\$ 15,000	\$ 100,000	3.75-5.40%
2012 QSCB	1,000,000	888,890	-	55,555	833,335	3.50%
2012C Certificate of Participation	650,000	590,000	-	25,000	565,000	.4 - 4.0%
2012 SELP Loan	583,136	513,139	-	32,574	480,565	3.50%
Total		\$ 2,107,029	\$ -	\$ 128,129	1,978,900	
			Less: Current Portion		(129,243)

All long-term debt obligations are payable from the General Fund.

9. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is reflected in the Statement of Net Assets on the accrual basis, and is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year ending June 30, 2015, the amount actually contributed to the plan, and changes in the District's net OPEB obligation:

	Year Ended June 30,		
	2015	2014	2013
Annual required contribution	\$ 56,660	\$ 54,744	\$ 52,893
Interest on net OPEB obligation	7,894	6,318	4,544
Adjustments to annual required contribution	<u>(7,049)</u>	<u>(5,641)</u>	<u>(4,057)</u>
Annual OPEB cost	57,505	55,421	53,380
Contributions made	<u>(22,979)</u>	<u>(16,016)</u>	<u>(9,031)</u>
Increase in net OPEB obligation	34,526	39,405	44,349
Net OPEB obligation - beginning of year	<u>197,358</u>	<u>157,953</u>	<u>113,604</u>
Net OPEB obligation - end of year	<u>\$ 231,884</u>	<u>\$ 197,358</u>	<u>\$ 157,953</u>
Percentage of ARC contributed	41%	29%	17%

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

9. OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Annual OPEB Cost and Net OPEB Obligation (CONTINUED)

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the year are as follows:

<u>Fiscal Year</u>	<u>Annual OPEB Cost</u>	<u>Contributions</u>	<u>Percentage of annual OPEB cost contributed</u>	<u>Net OPEB obligation</u>
2013	\$ 53,380	\$ 9,031	17%	\$ 157,953
2014	\$ 55,421	\$ 16,016	29%	\$ 197,358
2015	\$ 57,505	\$ 22,979	40%	\$ 231,884

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about the future employment, mortality, claim cost, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

In the most recent actuarial valuation as of July 1, 2012, the Projected Unit Credit Actuarial Cost Method has been used to determine contribution levels for the Plan. Contribution levels comprise two components: Normal Cost and Amortization Payments. Under this method, the expected accrued benefit of each participant at benefit commencement (reflecting future expected increases in salaries and medical premiums) is allocated in equal portion over the participant's years of service from hire to expected retirement. The normal cost is the present value of benefits expected to accrue in the current year. The actuarial assumptions included a 4.0 percent investment rate of return (net of administrative expenses). The projected annual rate of wage inflation is 3.5 percent compounded annually. The present value of benefits accrued as of the valuation date is called the accrued liability. The difference between the accrued liability and the actuarial value of plan assets is called the unfunded accrued liability. The unfunded accrued liability is being amortized as a level percentage of payroll over an open period of 30 years.

Funding Status and Funding Progress – As of July 1, 2012, the date of the District's valuation, the plan is 0% funded and the unfunded actuarial accrued liability was \$383,943. Covered payroll (annual payroll of active employees covered by the plan) was not available. The ratio of unfunded actuarial accrued liability to covered payroll was not available.

Retirement Health Insurance Account

Plan Description

As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, P O Box 23700, Tigard, OR 97281-3700.

Retirement Health Insurance Account (Continued)

Funding Policy

Because RHIA was created by enabling legislation (ORS 238.420) contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in PERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in PERS-sponsored health plan. A surviving spouse or dependent of a deceased PERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she is (1) is receiving a retirement benefit or allowance from PERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS, currently 0.59 percent of annual covered payroll for Tier One and Two employees, and 0.49 percent for OPSRP employees. The Oregon PERS Board of Trustees sets the employer contribution rate. It is based on the annual required contribution of the combined participant employers. This is an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a closed period not to exceed 30 years. The District's contributions to RHIA are included in the retirement PERS contributions.

10. COMMITMENTS AND CONTINGENCIES

The District participates in a number of federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The federal audits for these programs for the year ended June 30, 2015 have not been conducted. Accordingly, the District's compliance with grant requirements will be established at some future date. The amount, if any, of expenditures, which may be disallowed by the granting agencies, cannot be determined at this time, although the District expects such amounts to be immaterial.

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause increase or decreases in revenue. Due to these future uncertainties at the state level, the future effect on the operations cannot be determined.

11. PROPERTY TAX LIMITATIONS

The State of Oregon imposes a constitutional limit on property taxes for schools and nonschool government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to the Basic Financial Statements
For the Year ended June 30, 2015

11. PROPERTY TAX LIMITATIONS (CONTINUED)

The State further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the state to minimize the impact to school districts from the impact of the tax cuts.

12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchases commercial insurance to minimize its exposure to these risks. Settled claims have not exceeded this commercial coverage for any of the past three years.

13. ADOPTION OF GASB STATEMENT NO. 68 and 71

During the year, the District adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71 *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. GASB Statement No. 68 establishes standards for measuring and recognizing liabilities, deferred outflows or resources, deferred inflows of resources and expenses/expenditures. GASB 71 addresses an issue regarding application of the transition provisions of GASB Statement 68.

The implementation of GASB Statements 68 and 71 resulted in the restatement of the beginning net position of the governmental activities in the government-wide financial statements as follows:

Net Position, June 30, 2014, as previously reported	\$ 5,920,798
Proportionate of net pension liability	(3,387,503)
Deferred outflows - employer contributions for fiscal year 2014	607,540
Deferred outflows - differences between contributions	<u>154,068</u>
Net Position, June 30, 2014, as restated	<u><u>\$ 3,294,903</u></u>

Notes to Required Supplementary Information
For the Year Ended June 30, 2015

1. Other Postemployment Benefit

The schedule of funding progress for other postemployment benefits will eventually present multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

2. Employee Retirement Pension Benefits.

Changes in Plan Provisions Subsequent to Measurement Date

On April 30, 2015, the Oregon Supreme Court ruled that the provisions of Senate Bill 861, signed into law in October 2013, which limited the post-retirement COLA on benefits accrued prior to the signing of the law was unconstitutional. Benefits could be modified prospectively, but not retrospectively. As a result, those who retired before Senate Bill 861 passed will continue to receive a COLA tied to the Consumer Price Index that normally results in a two percent increase annually. OPERS will make restoration payments to eligible recipients.

OPERS members who have accrued benefits before and after the effective dates of the 2013 legislation will have a blended COLA rate when they retire.

This is a change in benefit terms subsequent to the measurement date of June 30, 2014, and not included in the net pension liability (asset) proportionate shares provided to employers in June 2015.

It is estimated that this change will increase net pension liability by \$3,265,930.

Changes in Assumptions

A summary of key changes implemented since the December 31, 2011 valuation are described briefly below. Additional detail and a comprehensive list of changes in methods and assumptions can be found in the 2012 Experience Study for the System, which was published on September 18, 2013, and can be found at: <http://www.oregon.gov/pers/docs/2012ExptudyUpdated.pdf>.

Changes in Actuarial Methods and Allocation Procedures.

Actuarial Cost Method - The Actuarial Cost Method was changed from the Projected Unit Credit (PUC) Cost Method to the Entry Age Normal (EAN) Cost Method. This change will allow OPERS to use the same cost method for contribution rate calculations as required for financial reporting under GASB Statements No. 67 and 68.

Tier 1/Tier 2 Unfunded Actuarial Liability (UAL) amortization - In combination with the change in cost method, the OPERS Board chose to re-amortize the outstanding Tier 1/Tier 2 UAL as of December 31, 2013 over a closed period of 20 years as a level percentage of projected payroll. Gains and losses between subsequent rate-setting valuations will be amortized over a closed 20-year period from the valuation in which they are first recognized.

Contribution Rate Stabilization Method - The "grade-in range" over which the rate collar gradually doubles was modified so that the collar doubles as funded status (excluding side accounts) decreases from 70 to 60 percent or increases from 130 to 140 percent. Previously the ranges had been 80 to 70 percent and 120 to 130 percent. The modification to the grade-in range was made in combination with the change to actuarial cost method, as discussed at the July 2013 OPERS Board public meeting.

CORBETT SCHOOL DISTRICT NO. 39
MULTNOMAH COUNTY, OREGON

Notes to Required Supplementary Information
For the Year Ended June 30, 2015

2. Employee Retirement Pension Benefits.

Allocation of Liability for Service Segments - For purposes of allocating Tier 1/Tier 2 members' actuarial accrued liability among multiple employers, the valuation uses a weighted average of the Money Match methodology and the Full Formula methodology used by OPERS when the member retires. The weights are determined based on the prevalence of each formula among the current Tier 1/Tier 2 population. For the December 31, 2010 and December 31, 2011 valuations, the Money Match was weighted 40 percent for General Service members and 10 percent for Police and Fire members. For the December 31, 2012 and December 31, 2013 valuations, this weighting has been adjusted to 30 percent for General Service members and 5 percent for Police and Fire members, based on a projection of the proportion of liability attributable to Money Match benefits at those valuation dates.

Changes in Economic Assumptions

Investment Return and Interest Crediting - The assumed investment return and interest crediting to both regular and variable account balances was reduced to 7.75 percent. Previously, the assumed investment return and interest crediting to regular account balances was 8 percent and the assumed interest crediting to variable account balances was 8.25 percent.

OPSRP Administrative Expenses - Assumed administrative expenses for the OPSRP System were reduced from \$6.6 million per year to \$5.5 million per year.

Healthcare Cost Inflation - The healthcare cost inflation for the maximum Retiree Health Insurance Premium Account (RHIPA) subsidy was updated based on analysis performed by Milliman's healthcare actuaries. This analysis includes the consideration of the excise tax that will be introduced in 2018 by the Patient Protection and Affordable Care Act.

Changes in Demographic Assumptions

Healthy Mortality - The healthy mortality assumption is based on the RP2000 generational mortality tables with group-specific class and setback adjustments. The group-specific adjustments have been updated to more closely match recently observed system experience.

Disabled Mortality - The disabled mortality assumption base was changed from the RP2000 healthy tables to the RP2000 disabled tables. Gender-specific adjustments were applied to align the assumption with recently observed system experience. RP2000 are mortality tables developed by the Society of Actuaries for the Secretary of Treasury.

Disability, Retirement from Active Status, and Termination - Rates for disability, retirement from active status, and termination were adjusted. Termination rates were changed from being indexed upon age to being indexed upon duration from hire date.

Changes in Salary Increase Assumptions

Merit Increases, Unused Sick Leave, and Vacation Pay - Unused sick leave and vacation pay rates were adjusted.

Retiree Healthcare Participation - The RHIA participation rate for healthy retirees was reduced from 48 to 45 percent. The RHIPA participation rate was changed from a uniform rate of 13 percent to a service-based table of rates.

3. Budget

A budget is prepared and legally adopted for the General Fund on the modified accrual basis of accounting. The budgetary basis of accounting is the same as accounting principles generally accepted in the United States of America basis for the governmental fund types, proprietary fund type and private purpose trust fund type. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of fund's budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearing before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels) with Board approval. During the year, there was supplemental budget in the General Fund. Appropriations lapse at the end of each fiscal year.

AUDITORS' COMMENTS AND DISCLOSURES REQUIRED
BY STATE REGULATION

THIS PAGE INTENTIONALLY LEFT BLANK

INDEPENDENT AUDITORS' REPORT REQUIRED BY OREGON STATE REGULATIONS

We have audited the basic financial statements of the Corbett School District No. 39, Multnomah County, Oregon (the District) as of and for the year ended June 30, 2014, and have issued our report thereon dated December 28, 2015. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295).
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

This report is intended solely for the information and use of the board of directors and management of the District and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.
