

# Summer Enrichment Art Camps

*Join Mrs. Shaw and Ms. Tucker for one or both of these fun camps!*

## Class #1, June 25-28: Art with the Masters

Master artists will be our guides as we explore the techniques, styles and inspiration that made them so prolific. Students will have daily lessons around specific artists and genres. Every day will be hands-on with lots of time to dive into creating art. *\*If you participated in this camp last year, we're discovering all new artists.*

## Class #2, July 24-26: Unconventional Art

In this class, students will explore the unconventional: junk art, nature collage, art in technology, and more. Students will create, construct, and build original pieces, with daily lessons inspired by artists in the world.
